No./Ex./Distillery/2010/387.—1. Sealed tenders (separate for each area to be mentioned in the tender) are invited from distillers for the grant of licence (s) under the provisions of the Chhattisgarh Country Spirit Rules, 1995, framed under Chhattisgarh Excise Act, 1915 (No. II of 1915) for supply of Country Liquor through storage warehouses situated in the supply areas of the state to the retail sale contractors of country liquor in sealed bottles after bottling and packaging in the distillery of the tenderer in Master cartons for a period commencing **from 1st April 2010 and ending with 31st March 2011.**

2. The tenderer should be a distiller holding appropriate licence for distillery from the competent authority and their distillery should be in production. Every intending distiller is free to tender for any one or more number of supply areas indicated in the caption.

3. The under mentioned factors will be borne in mind while considering a tender/tenders for supply area/areas :—

3.1 **The compensatory rate for supply quoted**—The rate / rates quoted by a tenderer as compared to the rates quoted by other tenderers. In case of equality of lowest rates quoted by more than one tenderer, decision to consider one tender out of such tenders will be taken by draw of lots.

3.2 **Performance or conduct, if the tenderer held a similar licence in the preceding year (s)**—While assessing past performance and conduct, regularity in liquor supplies to the area / areas earlier allocated to him during the relevant period shall be taken into consideration.

3.3 **Production capacity, financial position etc.**— While determining the capability of the tenderer of supplying the required quantity of country liquor in sealed bottles from their distillery to the area/areas for which he has submitted tender (s), his production capacity and the financial resources at his command will also be kept in view.

4. The decision to accept or reject a tender shall be taken on the basis of tender/ tenders received in the light of the above and any other relevant factor and no **negotiations will be held**. It is also notified for the information of intending tenderers that tenders of a distiller in respect of only such number of supply areas may be considered of which the total estimated quantity of issues of country liquor i. e. fixed annual minimum guarantee quantity for retail shops of country liquor in the State for the year 2010-2011, does not exceed 80 percent of the quantity arrived at by deducting committed supplies of Country Liquor to other States/U.T.S. from the maximum of annual production in his distillery during the last four years i.e.200 -2006, 2006-2007, 2007-2008, 2008-2009 and the estimated production during the year 2009-2010.

5. If the tenderer has been a supply contractor for any area/areas during any of these years and if he has submitted tenders in respect of such number of areas of which the total estimated quantity of issues for the year 2009-2010 exceeds 80 percent of the maximum of the actual production of spirit in his distillery as aforesaid; tenders in respect of such areas, to be determined by the State Government, of which the estimated annual requirement of issues is in excess of such 80 percent of the maximum of the annual production in his distillery shall be liable to be rejected or not to be considered at all. In case of a tenderer/ distiller who has not been a supply contractor during the last four years or during 2009-2010, tenders submitted by him in respect of only such number of areas may be determined keeping in view all the relevant factors including the above factors. Having decided thus about the areas in repsect of which tender (s) of a distiller may be considered, the State Government may either accept different rates for different supply areas or may only approve one rate for different areas.

Tender from newly established distillery may also be considered for the allotment of supply area / areas up to 80% of the maximum of the actual production of spirit in his newly distillery on the basis of their production of Financial year wise and average production up to December, 2009 in the year 2009-10, which ever is higher.
